ABOUT ME

Aspiring Computer Science Engineer | Passionate about Technology & Innovation | Seeking Growth Opportunities

OBJECTIVE

To apply my expertise as a skilled software engineer in a challenging and innovative environment, where I can contribute to the development of cutting-edge software solutions. I aim to collaborate with a talented team, utilize my problem-solving skills, and stay up-to-date with emerging technologies, while continuously enhancing my programming abilities and delivering high-quality software products that meet and exceed client expectations.

EDUCATION

PROJECTS

Semester 6 Handwritten character and digit recognition system
Academic Mini Project
Applied deep learning techniques to design and develop a robust model capable of accurately recognizing handwritten characters and digits.

Semester 7-8 Deepfake video detection system
Academic Major Project
In this work, we present a novel deep learning-based approach that effectively discerns AI-generated fake videos from authentic ones, demonstrating automatic detection capabilities for replacement and reenactment deep fakes.

SKILLS

Programming Languages: Proficient in C++.

Web Development: Experience in HTML5, CSS3

Machine-learning: Developed ML models using scikit-learn and Tensorflow.

Version Control: Skilled in using Git for collaborative development.

Problem-Solving: Adept at applying algorithms and data structures to solve complex challenges.

Software Tools: Experience with Visual Studio Code,JetBrains IDE's.

Artistic Skills : Logo design, Cartoon , etc.

LANGUAGES

English, Hindi, Malayalam

STRENGTHS

Problem solving, Adaptability , Effective communication , Time management , Resilience

ACTIVITIES

Volunteered in a local community outreach program , Member: TinkerHub [CUCEK], Member :Coding Club [CUCEK]
